

## Overcoming the Desire for Revenge 1 Samuel 18-25

It may not be difficult to forgive someone for one offense, but learning to do it every day and for every situation seems to be a tall task.

**1. We should value a clear conscience before God more than the satisfaction of getting even.**

David didn't let his pride or outside pressure cause him to react in a way that he would later regret.

David knew that his response would set an example for all those within his influence.

**2. It's one thing to vow that you've forgiven someone, but your actions speak louder than your words.**

Unlike David, Saul let his own pride and the influence of ungodly people affect his decision-making.

If you consistently live a life of integrity and forgiveness, God will cause even your enemies to admit your innocence.

Nabal was also a fool because he ignored the wise council.

**3. Before you vent your emotions, ask a trusted friend to give you a reality check on the situation.**

**Be humble enough to receive advice from the person that God sends your way.**

**These things will help you avoid a response that you will later regret.**
