

Bro. Matt

## Senior Adult Sunday

Psalm 92:12-15 (NIV84)

Our senior saints pass on the foundation of stability and strength. After all, someone paved the way for you to be here today.

### 1. God's Firmness

God provides the firmness for the believer with stability and strength while walking this journey following Christ.

The righteous will flourish... they will grow .... They will flourish.

### 2. God's Faithfulness

In our lives, we must make sure that people are not distracted by our wilt but are able to see the fresh and green growth of what God is doing every day.

God is able to see through all the mess and point us in the direction that will lead to a fresh and green life even when we are old.

### 3. God's Fruitfulness

God is not only wanting to help you stay fresh and green, but He is still willing to help you produce fruit even if your plant has a little age on it.

And rather than attracting people to the gospel, we will help detour them.

If we let our "roots" grow deeply into the divine soil, if we rely on God's strength and grace, then we can live with meaning and purpose at any age.
